

## Exit-Writer, from Krames, the Experts in Patient Education

### A Reflection of Quality Care

When your clinicians provide patients with Exit-Writer, from Krames patient education, they are providing a concrete representation of the quality patient care offered at your facilities. Exit-Writer, from Krames creates patient-centric materials in consideration of health literacy design principles designed to speed patient comprehension while making the most of the limited time your caregivers have to spend with patients today. The combination of easy-to-read text supported by graphics created specifically for the topic at hand means your patients are better suited to comply with caregiver recommendations and achieve better outcomes. *And informed patients achieving better outcomes means higher patient satisfaction scores.*

The fact that Krames is considered the gold standard in patient education is supported by the dozens of awards they have received including Gold and Platinum awards for Best Content from the eHealthcare Leadership Awards. It is this content that is made available to users of Cerner Millennium.
